How does the program work?
When you require a retainer replacement, give us a call as soon as possible. We will confirm if you need upper and lower retainers, or which arch. In most cases, we will simply use our scan of your teeth. You will be invited to pick up your new retainers a few days later. Please see our terms and conditions for more information.

How long should I wait after breaking/losing my retainer to contact you about getting a replacement?
ASAP, no more than 2 weeks.

What happens if I don't wear my retainer?
Just because your orthodontic treatment is finished doesn't mean that your teeth are going to stay in place.

If you don't wear your retainer, your teeth will tend to shift back into their old placement. If you don't wear your retainer, you may need orthodontic intervention again within 10 years, or even sooner.

Is it worth the money?
Without the Smile Protection Plan, the cost of an individual retainer replacement is $300 to $450 - the Smile Protection Plan offers the convenience of getting retainer replacements over the course of 7 years without having to worry about paying this cost out of pocket every time!
