Retainer replacements can be costly.

Frequently Asked Questions

How many retainers can I replace at one time?

Please note we will not provide multiple retainer replacements in a single visit.

Are there any costs for me after I pay the fee?

The fee you pay for your retainer replacement plan covers your retainer replacements. Should we need to take a scan due to tooth movement or dental work, a \$75 fee will apply.

Are there any types of loss/damage that aren't covered?

Most types of loss and damage are covered; please see our terms and conditions for more information.

What payments are accepted?

We accept Mastercard, Visa, Cash, Direct Debit.

How many installments are the monthly installments?

The payment plan is an initial payment of **\$400** and **3 monthly payments of \$160**.

When I need a new retainer, will they need to get new impressions done?

We will use the scan on file to make your replacement retainer.

How does the program work?

When you require a retainer replacement, give us a call as soon as possible. We will confirm if you need upper and lower retainers, or which arch. In most cases, we will simply use our scan of your teeth. You will be invited to pick up your new retainers a few days later.

Please see our terms and conditions for more information.

How long should I wait after breaking/losing their retainer to contact you about getting a replacement?

ASAP, no more than 2 weeks.

What happens if I don't wear my retainer?

Just because your orthodontic treatment is finished doesn't mean that your teeth are going to stay in place.

If you don't wear your retainer, your teeth will tend to shift back into their old placement. If you don't wear your retainer, you may need orthodontic intervention again within 10 years, or even sooner.

Is it worth the money?

Without the Retainer Replacement Program, the cost of an individual retainer replacement is \$195 to \$300 - the Retainer Replacement Program offers the convenience of getting retainer replacements over the course of 7 years without having to worry about paying this cost out of pocket every time!

I purchased the program while in treatment, when does my coverage start?

The program will start the day your braces or aligners are removed and will be valid for 7 years from that date.

I already had my braces or aligners removed and I would like to purchase the program. Do I have coverage for 7 years?

If your debond was before December 1, 2021 you will qualify for the full 7 years of coverage from the date of purchase.

If you started treatment after December 1, 2021 and you did not purchase the program at contract start or at debond your coverage will be valid from the date of your debond. For example, you had your debond 6 months ago you will qualify for 6 and a half years of coverage.
